

centering a guide to pdf

center vs. centering. A frequently seen mistake is to use `begin{center}` and `end{center}` inside a figure or table environment. This center environment can cause additional vertical space.

center vs. centering | TeXblog

Centering wide tables or figures. When you want to include an image or a table that's wider than the text width, you will notice that even when centering or the center-environment is used this wide object will not be centered in relation to the surrounding text.
