The toothbrush is an oral hygiene instrument used to clean the teeth, gums, and tongue. It consists of a head
of tightly clustered bristle--atop of which toothpaste is supposed to goâ€”mounted on a handle which
facilitates the cleaning of hard-to-reach areas of the mouth.. Toothbrushes are available with different bristle

textures, sizes, and forms. Most dentists recommend using a soft ...

(2) A description of any reasonably foreseeable risks or discomforts to the subject. The risks of procedures relating solely to research should be explained in the consent document.

A Guide to Informed Consent - Information Sheet

Major depressive disorder (MDD), also known simply as depression, is a mental disorder characterized by at least two weeks of low mood that is present across most situations. It is often accompanied by low self-esteem, loss of interest in normally enjoyable activities, low energy, and pain without a clear cause. People may also occasionally have false beliefs or see or hear things that others ...

Overview. This fourth revision of the manual reflects recent clinical experience and research findings in diarrhoea case management. Compared to earlier versions, it includes revised guidelines on the management of children with acute diarrhoea using the new reduced (low) osmolarity ORS formulation and using zinc supplements, which have been shown to reduce duration and severity of diarrhoeal ...
